Date	12.10.2023
Team ID	NM2023TMIB
Project Name	Project – Data Dominators-Comparative study of top global universities in data analytics.
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

A good university management system ensures improved academic delivery, working efficiency and better student achievements.
